TechnologyOne CiA Financials SaaS Invoice Data Capture

SOLUTION BENEFITS:

- Automatically capture and process invoices from multiple sources including email, E-Invoice or scanned hardcopy, directly to TechnologyOne.
- Reduce the costs, errors and time associated with manual invoice processing.
- Apply multiple exception rules. e.g. Invalid supplier, invalid or no order number, duplicate invoice, bank details mismatch.
- Process purchase order, non order, credit notes and sundry transactions, workers comp and reimbursements.
- Upload invoices as document file transactions into TechnologyOne with the PDF linked.
- Submit invoices via webform with supporting documentation.
- Pay your suppliers on time and avoid late payment fees.
- Improve visibility and control of your AP Workflow and overall financial position.

Take the hard work out of your Accounts Payable Processing with EzeScan's Automated Invoice Capture, Software as a Service.

With intelligent automated data capture and seamless integration with TechnologyOne CiA Financials, EzeScan delivers the fastest, most cost effective method to effortlessly capture both hard copy and electronic invoices directly into your accounts payable workflows. Save time, cut costs and reduce errors associated with manually processing your invoices and improve efficiency of your AP workflows.

Cloud Deployment

EzeScan's Accounts Payable Solution for TechnologyOne CiA Financials is now available as a SaaS offering in the EzeScan CLOUD. For you this means flexible and fast deployment with an affordable monthly subscription, without the software, hardware or management headaches. Future proof your accounts payable solution as your organisation grows.

Smart Capture

EzeScan's smart capture technology allows EzeScan to automatically extract values from any location on your invoices. Extracted metadata can be validated against TechnologyOne CiA Financials using real time two way integration to ensure data integrity is maintained and exceptions are flagged. Flagged invoices can be reviewed in EzeScan's intuitive WebApps interface from anytime, any location.

Automated Processing

Automate your accounts payable workflow with EzeScan and achieve touchless processing of your invoices. Automation includes the capture of emailed invoices from Office 365 mailboxes, invoice scanning, data capture, validation and upload to TechnologyOne CiA Financials. With EzeScan's process automation you can now achieve impressive gains in productivity and accuracy with little or no user input. Let your team focus on high-value tasks as EzeScan automates the rest.

Seamless Integration

EzeScan provides 'out of the box' native integration with TechnologyOne CiA Financials. To the end user this means a seamless experience when capturing and registering invoice transactions. As a standard service offering, EzeScan provides rapid deployment measured in days, not months ensuring a quick start to automating your accounts payable processes.

How It Works

The EzeScan Advantage

EzeScan provides fast, cost effective capture and business process automation solutions for both hard copy and digital born documents. Available as on-premise software or as a Cloud managed service, our AI enabled software solutions can be configured to provide document back scanning, accounts payable OCR, robotic process automation, digital forms and forms data extraction, mailroom/correspondence automation, decentralised workgroup capture or centralised highly integrated EDRMS capture. With thousands of installations in Australasia, North America, and the UK, EzeScan is your premier partner for digital transformation.
